# **PART A: MOTIVATION REPORT**

## **INTRODUCTION**

### **Background**

The Observatory Improvement District (OBSID) was established in 2008 and commenced operations in 2009. As a mixed-use improvement district, Observatory presents both unique opportunities and complex challenges. OBSID therefore seeks to balance the needs of residents, businesses, students, visitors and vulnerable individuals while preserving the distinctive character, diversity and creativity that define the suburb.

Improvement Districts are established to support urban regeneration, economic growth and sustainable development by providing supplementary services that enhance, rather than replace, those delivered by local government. Achieving these objectives requires more than service delivery alone. It depends on building community pride, encouraging active citizenship, fostering partnerships, and creating an environment where people choose to live, work, study, invest and visit. Through community engagement, place-making initiatives and strategic partnerships, OBSID seeks to strengthen Observatory's reputation as one of Cape Town's most vibrant and inclusive neighbourhoods.

OBSID is proud to have served the Observatory community for the past fifteen years, successfully delivering three consecutive five-year terms. During this time, the organisation has evolved into a trusted partner, working alongside residents, businesses, property owners, the City of Cape Town, the South African Police Service (SAPS), community organisations and other stakeholders to improve the quality of life within the precinct. This continued support reflects the confidence that property owners have placed in the Special Rating Area model and the value it has delivered to the community.

A City Improvement District (CID) is a geographically defined area established by the City of Cape Town in terms of the City Improvement District Area By-law, 2023. Within this area, property owners collectively fund enhanced and supplementary services that complement those provided by the City. This partnership enables OBSID to respond to local priorities, coordinate stakeholders and deliver initiatives that would not otherwise be possible.

As a registered Non-Profit Company (NPC), OBSID is governed by an independent Board of Directors and works across the public, private and non-profit sectors to develop, manage and promote Observatory. The NPC provides strategic leadership, facilitates collaboration and advocates for initiatives that contribute to a safer, cleaner, more inclusive and economically vibrant community.

This Five-Year Business Plan sets out OBSID's strategic direction, operational priorities and intended outcomes for the period **1 July 2027 to 30 June 2032**. Building on the successes of previous terms, the plan responds to emerging opportunities and challenges while providing a practical, evidence-based framework for delivering measurable outcomes and ensuring the long-term sustainability of Observatory.

Over the next five years, OBSID will remain committed to:

- Improving public safety.
- Maintaining and cleaning of public areas.
- Implementing environmental development.
- Supporting social development.
- Promoting sustainable economic growth and investment.
- Strengthening partnerships and community participation.
- Commit to transparent, accountable and financially sustainable governance.

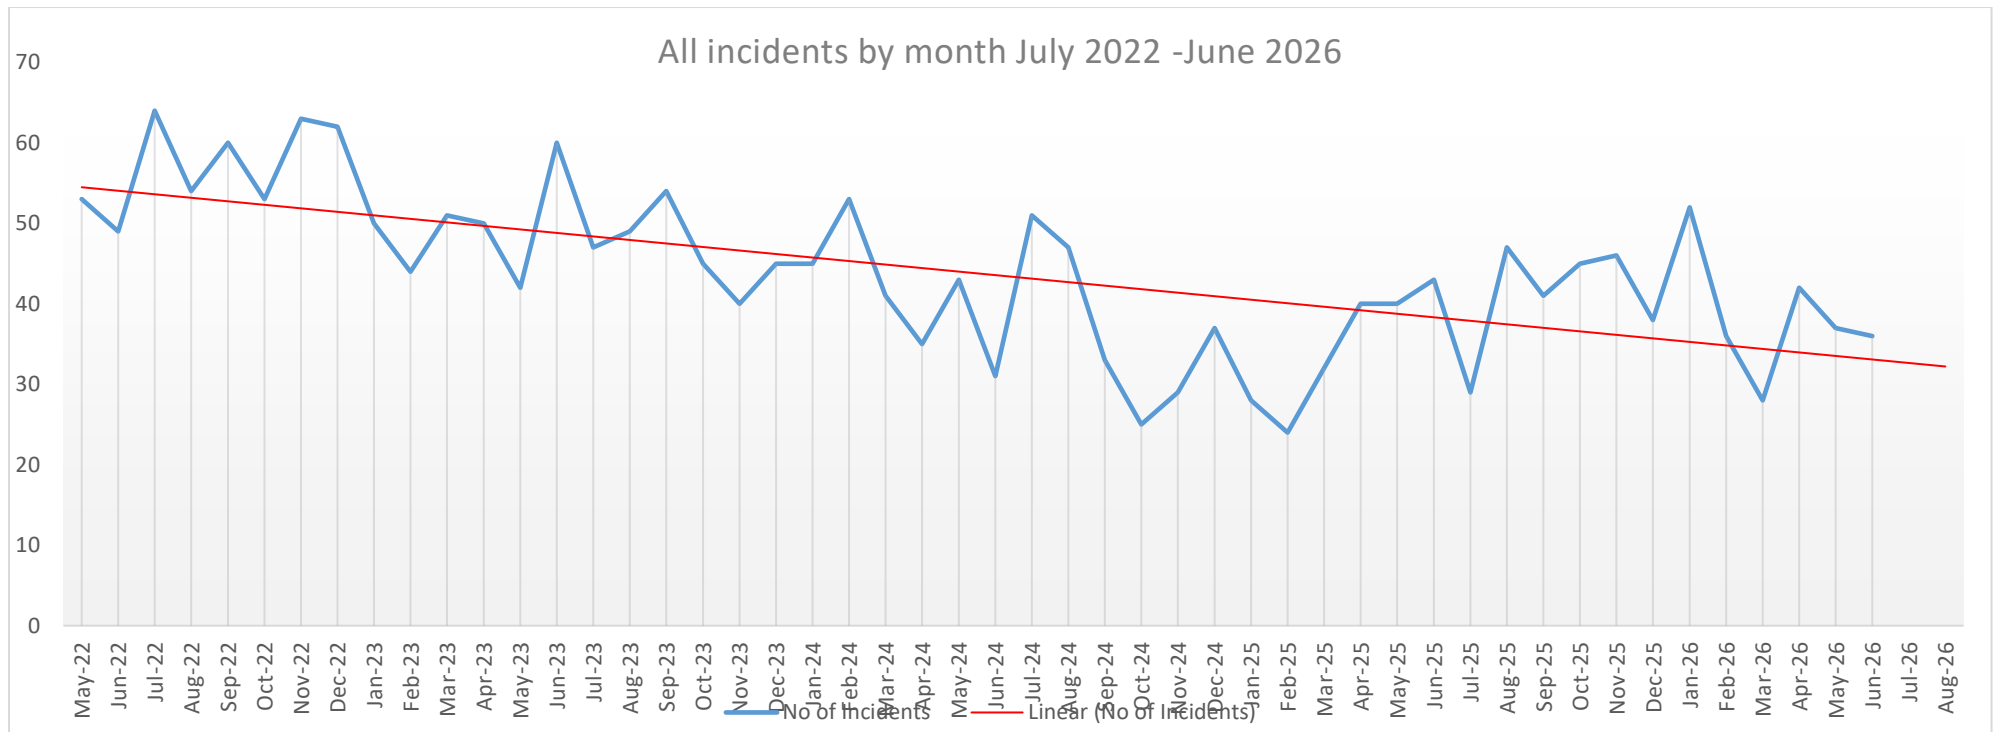

Together, these priorities will help ensure that Observatory remains a safe, welcoming, diverse and resilient neighbourhood that continues to thrive as a place to live, work, study, invest and visit.

This Business Plan forms the basis upon which property owners are asked to renew OBSID's mandate for a fourth five-year term, ensuring the continued delivery of supplementary services that enhance Observatory and support its long-term sustainability.

### **OBSID's Achievements: Previous Five-Year Term**

OBSID has considerably deepened its services and programmes in the past 5 years.

During the previous five-year period, OBSID strengthened both operational capacity and strategic partnerships.

### Key achievements include:

- Maintaining stable governance and achieving unqualified audits throughout the operational term;
- Expanding Closed Circuit Television (CCTV) and Licence Plate Recognition (LPR) infrastructure;
- Introducing body-worn cameras and improved digital reporting systems;
- Strengthening public safety deployment and coordination with SAPS and law enforcement;
- Developing community communication systems including WhatsApp and digital reporting platforms;
- Supporting community events and placemaking initiatives;
- Establishing environmental partnerships and initiating composting and recycling initiatives;
- Improving stakeholder engagement across civic, municipal, and private sector structures; and
- Achieving measurable reductions in reported crime incidents over the operational period.

These achievements provide a strong operational foundation for the next phase of OBSID's development.

**Name of the proposed district:**

Name: The Observatory Improvement District NPC (hereinafter referred to as OBSID)

**Applicants name and business address:**

Contact information: Matt Tyrrell  
Chief Executive Officer  
The Observatory Improvement District NPC

Unit 13 St Michaels Office Park  
St Michaels Road

Company Secretary: Ursula Genthe

Accountants: Accounts Star c.c.

## **Vision, Mission and Goal of the OBSID**

### **Our Vision**

A vibrant, welcoming and inclusive Observatory, where everyone enjoys safe, attractive and environmentally friendly public spaces.

### **Our Mission**

Together, we are committed to developing, nurturing and enhancing Observatory as a vibrant, inclusive and sustainable neighbourhood through meaningful community programmes, strong partnerships, and a celebration of our unique identity and creativity.

### **Goal**

- A Safe and Well-Managed Observatory: Enhance public safety and urban management through supplementary services that promote a clean, safe and welcoming environment.
- An Attractive and Sustainable Public Environment: Improve, maintain and enhance public spaces through environmental management, cleansing, greening and beautification initiatives.
- A Thriving and Inclusive Community: Promote social cohesion, economic development and urban regeneration while celebrating Observatory's diversity, creativity and unique identity.
- Strong Governance and Partnerships: Strengthen accountable governance, active stakeholder participation and strategic partnerships that support the long-term sustainability of the Observatory CID.

## **Geographical boundaries of OBSID:**

OBSID's boundaries extend from Rochester Road in the north to Dane Street in the south and from the lower side of Main Road in the west to Ossian and Willow Roads running alongside the Hartley vale Sports Precinct in the east.

## **OBSID AREA IN NUMBERS\*:**

- Size of SRA: 1.06 km<sup>2</sup>
- Estimated Daily Incoming & Outgoing Population: 42 000 people Plus Call Centre Business employees.
- Overall Rateable Value of Property: R8,361,253,313
- Number of Erven: 1914
- Residential Units/Buildings: 2700
- Commercial-industrial Units/Buildings: 325

## Strategic Objectives:

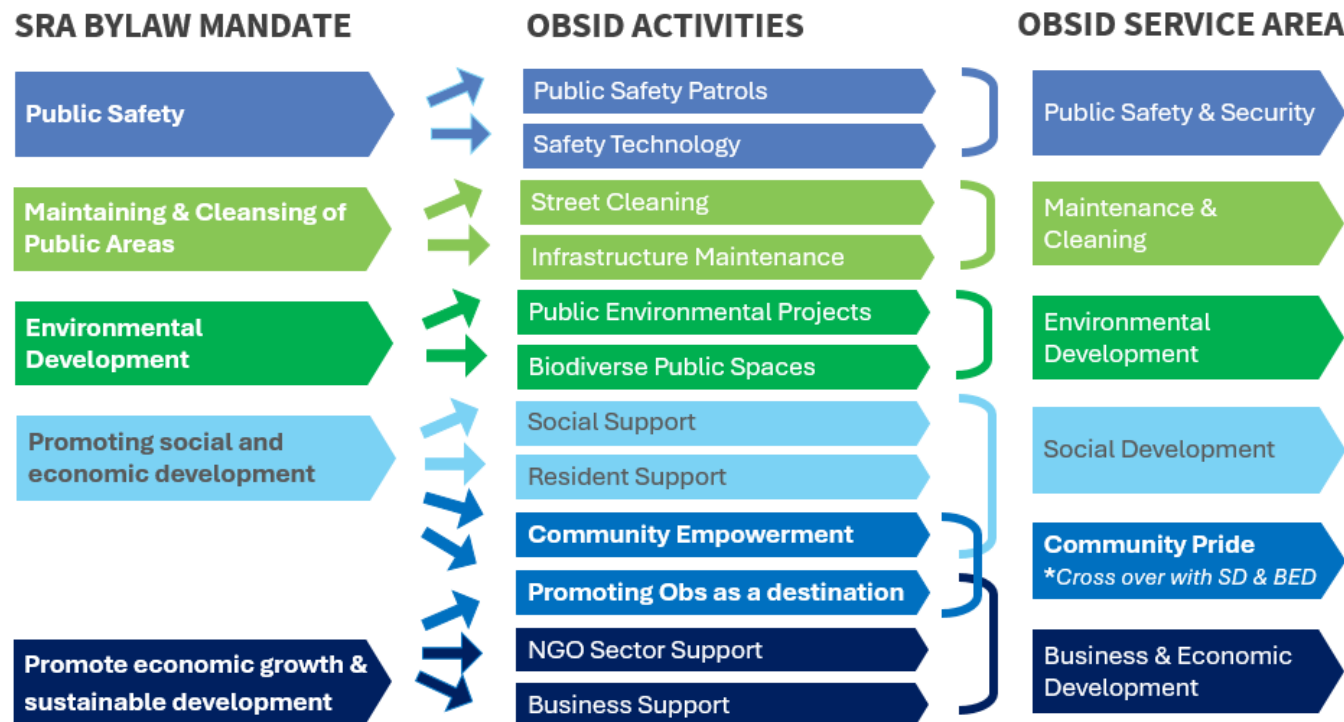

In 2025, the OBSID Board undertook an extensive strategy development process.

As a 15-year-old organisation, OBSID has progressed through periods of growth and consolidation. We have strong foundations, an experienced team and strong relationships within the community. We are now in a position to work with a longer-term strategy and a clear vision for Observatory.

This strategy has been informed by a community survey which, together with the knowledge gathered through the delivery of our work, has helped to inform our strategic vision, objectives and activity areas.

Observatory is a mixed use (residential and business) community and has a unique character and history. Within the framework of the City's CID By-law, 2023 (which underpins all city improvement districts in Cape Town), OBSID has evolved service areas that reflect our specific needs.

## Service areas:

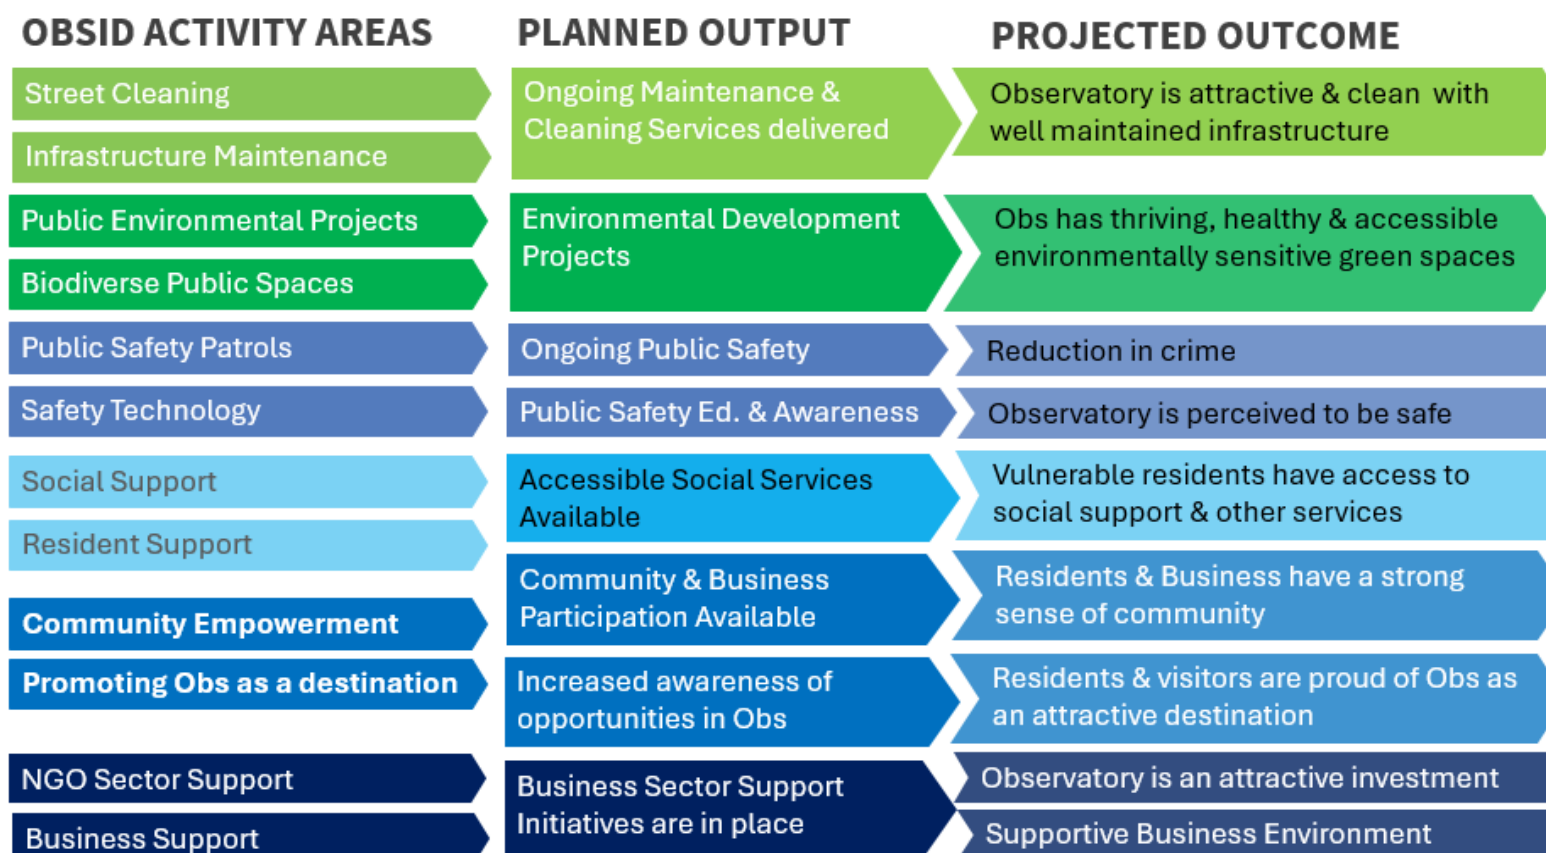

## Impact plan:

Our impact relates to the broader or longer-term effects of OBSID's activities, outputs and outcomes.

OBSID focus on the four programme areas as defined from the CID mandate: (1) Public Safety & Security (Public Safety); (2) Maintaining & Cleaning Public Areas (Maintaining and Cleansing of Public Areas); (3) Environmental Development; (4) Social Development (Social and Economic Development);

By focusing on the outcomes for Observatory by programme area, this plan serves to lay out the outcomes OBSID wishes to achieve. The combination will result in our intended impact, as illustrated below.

**Strategic priorities:**

Strategic priorities have been identified for the next five years. This will maintain focus on our objectives and ensure that our activities are aligned.

- Public Safety;
- Maintaining & Cleaning Public Areas (Maintaining and Cleansing of Public Areas)
- Environmental Development
- Social Development (Social and Economic Development) At OBSID we broke the focus into smaller areas
  - Social Development
  - Community Pride
  - Business & Economic Development
- Management & Administration – A well run CID is important to ensure service effective delivery and cost effective use of public fund in a compliant manner.

The Table below focus area identified outcome that cross-over:

| Focus Area                                                                                                                                                                                                                                                                     | PS | MC | ED | SD | CP | BD | MA |

### Strategic context:

#### Observatory as a Mixed-Use Urban Precinct

Observatory remains one of Cape Town's most diverse and dynamic mixed-use communities. The area includes:

- Residential neighbourhoods;
- Commercial and retail activity;
- Hospitality and entertainment sectors;
- Educational institutions;
- Public transport corridors; and
- Public open spaces and environmental assets.

This diversity contributes significantly to Observatory's identity and attractiveness but also creates complex urban management challenges requiring coordinated and responsive interventions.

### **Key Challenges:**

Community engagement, operational experience and public surveys identified the following key concerns:

- Public safety and perception of safety at night;
- Urban cleanliness and illegal dumping;
- Deteriorating municipal infrastructure;
- Substance abuse in public spaces;
- Increased pressure on social support systems;
- Public space accessibility;
- Informal waste picking and littering;
- Traffic congestion and pedestrian safety; and
- Environmental sustainability.
- Increased safety visibility;
- Improved urban management;
- Expanded environmental programmes; and
- Compassionate but structured social interventions.

## Core Values

We are guided by:

- Transparency and accountability - We act openly, responsibly and in the best interests of our stakeholders.
- Ethical Practice - We uphold the highest standards of integrity, fairness and good governance in all our actions and decisions.
- Respect - We value the dignity, perspectives and contributions of all members of our community.
- Inclusivity - We strive to create a welcoming environment where diversity is celebrated and all stakeholders have the opportunity to participate.
- Cooperation - We foster collaboration and strong partnerships to achieve shared goals and sustainable outcomes.
- Care & Empowerment - We support initiatives that enhance the wellbeing of our community and empower stakeholders to contribute to the future of Observatory.

Together, we improve and celebrate everything that makes Observatory special.

## PROPOSED SERVICES AND PROJECTS

### Public safety

Public safety is a core component of the mandate of a City Improvement District. Observatory faces many of the safety challenges experienced by other diverse, mixed-use urban communities in South Africa. The area accommodates residents, businesses, schools, healthcare facilities, entertainment venues, public-transport users and a substantial daily population moving through the precinct.

Although recorded crime has declined over time, the perception that Observatory is unsafe remains a concern. Addressing actual crime and improving the public's perception of safety are therefore equally important. Visible patrols, timely responses, accurate information and well-managed public spaces all contribute to creating an environment in which people feel confident living, working, visiting and investing.

## **Objective (Intended Impact)**

Residents, visitors and business customers and employees are able to safely enjoy public spaces. Observatory is perceived to be a safe place to live, visit and work.

## **OBSID activities that contribute to this vision**

### **Services and Activities**

#### **Professional Public-Safety Service**

- OBSID will maintain a professional public-safety service operating 24 hours a day, seven days a week and 365 days a year. The planned service level comprises:
- Four vehicle-patrol units and four foot patrollers per shift, operating across three shifts to provide continuous coverage.
- A control and communications capability to receive reports, coordinate responses, dispatch officers and record incidents.
- Visible patrols throughout the OBSID area, including residential streets, business areas, public spaces, pedestrian routes and transport-related areas.
- Rapid deployment to reported incidents and assistance to complainants, emergency services and authorised law-enforcement agencies.
- Proactive patrols based on incident patterns, repeat complaints, environmental conditions and information received from stakeholders.
- Assistance with securing incident scenes, gathering relevant information and supporting complainants until SAPS or another appropriate authority assumes responsibility.
- Regular monitoring of service-provider performance, patrol activity, response times, vehicle use, equipment and compliance with contractual requirements.
- OBSID public-safety officers do not replace SAPS, Metro Police, Law Enforcement or Traffic Services and do not assume their statutory powers. Their role is to provide a visible deterrent, observe and report unlawful activity, respond within the CID boundary, support complainants and coordinate with the appropriate authorities.

#### **CCTV and Safety Technology**

- During the previous five-year term, OBSID introduced CCTV coverage at selected high-activity and retail locations. These cameras are monitored 24 hours a day, seven days a week by trained personnel employed by a contracted monitoring service provider. Human monitoring will remain central to the system.
- Over the next five years, OBSID plans to:
- Maintain the existing CCTV network and associated communications infrastructure.
- Replace cameras, network equipment and related technology as they reach the end of their useful lives.

- Review camera positioning when changes in the built environment, crime patterns or operational experience indicate that relocation would improve effectiveness.
- Consider limited additional cameras where a clearly identified coverage gap, operational need and sustainable business case exist.
- Continue using licence-plate recognition technology to identify and report vehicles of interest to authorised law-enforcement agencies.
- Ensure that licence-plate recognition remains a monitoring and reporting function, with interception or enforcement undertaken only by SAPS or another authorised agency.
- Maintain appropriate controls governing access to footage, retention of information and the lawful processing of personal information.
- OBSID does not presently propose a substantial expansion of the CCTV network because of the installation, connectivity, monitoring, maintenance and replacement costs involved.
- Artificial intelligence and automated video analytics will be monitored as these technologies develop. OBSID may test or introduce appropriate systems where they can demonstrably improve detection, response coordination or operational efficiency. Any implementation will be subject to a documented operational need, affordability, reliability, legal and POPIA compliance, and Board approval. Technology will support trained personnel rather than automatically replacing human monitoring and decision-making.

## **Public Information and Communication**

- OBSID will provide residents, businesses and visitors with reliable information that enables them to make safer choices. This will include:
  - Regular communication on public-safety trends and relevant incidents.
  - Practical safety guidance and alerts where an immediate or emerging risk has been identified.
  - Information on how and where to report incidents.
  - Publication of appropriate public-safety statistics and operational outcomes.
  - Clear communication about OBSID's mandate and the respective responsibilities of SAPS, the City and other agencies.
  - Encouraging victims of crime to open cases with SAPS so that incidents are reflected in official crime statistics and can inform policing resources.

- Communication that is accurate and responsible and does not compromise personal information, investigations or operational security.

## The Plan

Over the years, OBSID has steadily strengthened its public-safety capacity and established a professional, visible patrol service. During the past five years, this capability has been enhanced through the introduction of CCTV coverage in key retail areas. These cameras are monitored by trained personnel 24 hours a day, seven days a week, rather than relying solely on artificial intelligence.

Given the significant ongoing operating costs, OBSID does not currently plan to expand its CCTV network substantially. The five-year budget therefore provides for the continuation of existing services, inflation-related increases for service providers, and the replacement of vehicles and equipment as they reach the end of their useful lives.

OBSID nevertheless recognises that technology is developing rapidly. Where new technologies present practical opportunities to improve operational effectiveness, strengthen public safety or reduce the financial burden on additional ratepayers, these will be carefully assessed. OBSID is confident that it has sufficient resources available to take advantage of appropriate opportunities as they arise.

## Total Estimated Costs

| Description     | Year 1     | Year 2     | Year 3     | Year 4     | Year 5     | Total expenditure |
|-----------------|------------|------------|------------|------------|------------|-------------------|
| Public Safety   | R6,490,122 | R6,879,530 | R7,292,302 | R7,729,840 | R8,193,630 | R36,585,424       |
| CCTV Monitoring | R1,391,482 | R1,474,971 | R1,563,469 | R1,657,277 | R1,756,714 | R7,853,883        |

|                           |                   |                   |                   |                   |                    |                    |
|---------------------------|-------------------|-------------------|-------------------|-------------------|--------------------|--------------------|
| Capital items (e.g. CCTV) | R0                | R0                | R500,000          | R200,000          | R150,000           | R850,000           |
| <b>TOTAL</b>              | <b>R7,881,604</b> | <b>R8,354,501</b> | <b>R9,355,771</b> | <b>R9,587,117</b> | <b>R10,100,344</b> | <b>R45,289,307</b> |

## Allocation of Resources

All areas of the OBSID will be served on an equal basis. Public Safety patrols will cover the entire area and respond to incidents across the entire area.

### Alignment with the Municipality's IDP and with section 22(4) of the MPRA

The Public Safety Programme is fully aligned with the City's Integrated Development Plan (IDP) and complies with the requirements of Section 22(4) of the MPRA, which stipulates that the determination of a special rating area must be consistent with the objectives of the IDP. This alignment is illustrated in the table below.

| <b>IMPROVING PUBLIC SAFETY</b> |                                     |                                                            |                                                 |

| Public Safety                  | TOP TIER PRIORITY:<br><b>SAFETY</b> | OBJ 6: Strengthen partnerships for safer communities       | 6.1 Partnerships for community safety programme |
|                                |                                     |                                                            | 6.2 Holistic crime prevention programme         |

## Maintenance and Cleaning

Maintaining and Cleansing of public areas including cleaning verges and addressing dumping is a requirement of the mandate provided to OBSID in terms of the CID by-law. The intention of this mandate is to prevent urban decay and to support community regeneration.

### Objective (Intended Impact)

An Observatory which is attractive, clean and with well-maintained infrastructure.

### OBSID activities that contribute to this vision

#### Cleaning and Maintenance

Over the five-year term, OBSID will strengthen its urban cleaning and maintenance programme through the appointment of one or more professional service providers. This will enable OBSID to expand its service offering, improve accountability and deliver a consistently cleaner and better-maintained Observatory.

The programme will combine scheduled daily services with the capacity to respond to urgent or unexpected problems. It will include:

- **Public litter bins:** Inspecting, emptying and cleaning public bins daily, seven days a week, with additional servicing in high-use areas and after events. Damaged bins will be repaired or replaced where appropriate.
- **Illegal dumping:** Removing illegal dumping promptly and using education, patrol reports, witness information and CCTV footage, where available, to identify offenders. Evidence will be submitted to the City to support the issuing of fines or compliance notices.
- **Stormwater drains:** Cleaning accessible stormwater drains and inlets at least twice a month, with the frequency increased before and during the winter rainfall season. The programme will focus on removing litter, vegetation and other surface obstructions. Blockages requiring jetting, excavation or specialised municipal equipment will be reported and escalated to the City.

- **Weed control:** Undertaking ongoing manual weed removal, with additional attention during periods of rapid seasonal growth. All weeds will be removed by hand, as OBSID does not use pesticides or herbicides in common areas.
- **Graffiti management:** Recording graffiti from authorised public surfaces within one to two working days, wherever practicable. Offensive or discriminatory graffiti will be prioritised for urgent removal. Area-wide graffiti inspections and removal will also be conducted at least every 14 days. Graffiti on private property will be addressed in consultation with the property owner.
- **Cigarette bins:** Identifying smoking hotspots in consultation with businesses and property owners and installing suitable cigarette bins where permission has been obtained. These bins will be inspected, emptied and cleaned as part of the routine cleaning programme and repaired or replaced when necessary.

OBSID will continue its partnership with the **Straatwerk OP Help Project** for stormwater-drain cleaning, graffiti removal and afternoon litter-picking services. This partnership provides both an enhanced municipal service and meaningful work opportunities.

OBSID will also promote shared responsibility for the public environment by encouraging residents, businesses and visitors to report problems, manage the areas immediately outside their properties, and participate in community clean-ups and place-improvement initiatives.

## **Infrastructure and Minor Maintenance**

OBSID recognises two categories of infrastructure-related work:

1. **Major municipal infrastructure defects**, which remain the responsibility of the City. These include significant road failures, potholes, sewer blockages, water leaks, faulty streetlights, traffic-signal failures and major pavement damage. OBSID will identify and report these defects, track the relevant service requests and escalate unresolved matters through the appropriate City departments, Subcouncil and Ward Councillor.
2. **Minor maintenance and public-realm improvements** that OBSID may undertake as an enhanced municipal service, subject to the necessary permissions, available funding and Board approval. These may include repainting road markings and authorised public infrastructure, repairing or replacing public bins and street furniture, installing or straightening bollards, undertaking minor paving repairs, and assisting with the replacement of damaged or missing manhole covers in accordance with City specifications.

OBSID will continue working with the City's Roads Infrastructure Management Department and other relevant departments to develop design-led responses to recurring urban-management and traffic problems. These may include improved road markings, signage, bollards, defined parking areas, pedestrian improvements and other traffic-calming measures. The objective is to design public spaces in ways that encourage compliance and safer behaviour, rather than relying solely on by-law enforcement.

Routine cleaning and maintenance are provided for within the five-year Urban Management operating budget. Larger maintenance or infrastructure-improvement projects will be supported by project-specific budgets and presented to the Board for consideration. The Board will assess each proposal against its anticipated community benefit, affordability, legal requirements and long-term maintenance implications.

### **Total Estimated Costs**

| <b>Description</b> | <b>Year 1</b>     | <b>Year 2</b>     | <b>Year 3</b>     | <b>Year 4</b>     | <b>Year 5</b>     | <b>Total expenditure</b> |
|--------------------|-------------------|-------------------|-------------------|-------------------|-------------------|--------------------------|
| Cleansing          | R1,484,000        | R1,573,040        | R1,667,422        | R1,767,468        | R1,873,516        | R8,365,446               |
| <b>TOTAL</b>       | <b>R1,484,000</b> | <b>R1,573,040</b> | <b>R1,667,422</b> | <b>R1,767,468</b> | <b>R1,873,516</b> | <b>R8,365,446</b>        |

### **Allocation of Resources**

Resources will be allocated on an equal basis across all areas of the OBSID. Ongoing maintenance and cleansing will be based on a structured programme to ensure a fair allocation of CID resources.

### **Alignment with the Municipality's IDP and with section 22(4) of the MPRA**

The Maintenance and Cleansing Programme is fully aligned with the City's Integrated Development Plan (IDP) and complies with the requirements of Section 22(4) of the MPRA, which stipulates that the determination of a special rating area must be consistent with the objectives of the IDP. This alignment is illustrated in the table below.

| MAINTENANCE AND CLEANSING |                                                                             |                                                                                              |                                                                    |

| CID PROGRAMMES            | IDP PRIORITIES/ FOUNDATION                                                  | IDP OBJECTIVES                                                                               | IDP PROGRAMMES                                                     |
| Cleansing                 | TOP TIER PRIORITY: <b>BASIC SERVICES</b>                                    | OBJ 4: Well-managed and modernised infrastructure to support inclusive economic growth       | 4.7 Promoting Cleanliness and addressing Illegal dumping Programme |
| Cleansing and Maintenance | SECONDARY TIER PRIORITY: <b>PUBLIC SPACE, ENVIRONMENTAL &amp; AMENITIES</b> | OBJ 11: Quality and safe parks and recreation facilities supported by community partnerships | 11.1 Quality community facilities programme                        |
|                           |                                                                             |                                                                                              | 11.2 Partnerships for quality public spaces programme              |

## Environmental Development

Environmental development forms part of the core mandate of a City Improvement District. It includes the greening, landscaping, beautification, maintenance and appropriate upgrading of parks, planted areas and public open spaces.

Over the five-year term, OBSID will reappoint an environmental service provider to work within the area for two days each week. The service provider will undertake routine maintenance of parks, planted areas and public open spaces. Additional specialist service providers may be appointed to implement approved greening, landscaping, biodiversity or public-space improvement projects.

## Objective and Intended Impact

Observatory has thriving, healthy, attractive and accessible green spaces that are planned and maintained in an environmentally responsible manner. These spaces encourage positive community use, support biodiversity and contribute to a safer, more welcoming and climate-resilient neighbourhood.

## **Routine Environmental Maintenance**

The environmental service provider will undertake scheduled work two days each week. The programme will include:

- Maintaining municipal parks, planted beds, verges and selected public open spaces within the OBSID boundary.
- Cutting grass and trimming vegetation where this forms part of OBSID's agreed maintenance responsibilities.
- Maintaining planted beds through manual weeding, pruning, mulching and the application of compost.
- Watering plants and maintaining irrigation systems installed or managed by OBSID.
- Undertaking authorised minor pruning of trees and shrubs to improve plant health, pedestrian access, visibility and public safety.
- Removing dead plant material and green waste generated through OBSID's maintenance activities.
- Monitoring the condition of plants, trees, irrigation systems, planters and other environmental assets.
- Identifying and reporting damaged park infrastructure, unsafe trees, water leaks and other concerns requiring City intervention.

All weed removal in common areas will be undertaken manually. OBSID will not use pesticides or herbicides in public common areas. Major tree pruning, tree removal and other specialised work will be undertaken only by appropriately qualified service providers and with the necessary City approval.

## **Greening and Public-Space Improvement Projects**

OBSID will identify and implement projects that improve the appearance, environmental quality and functionality of public spaces. These may include:

- Planting appropriate indigenous or water-wise trees, shrubs and groundcovers.
- Rehabilitating damaged or neglected planted areas.
- Installing and maintaining planters and landscaped features.
- Improving irrigation and water efficiency.
- Adding compost and mulch to improve soil health and reduce water loss.
- Supporting pollinators and urban biodiversity through appropriate plant selection.
- Improving the relationship between landscaping, lighting, pedestrian movement and natural surveillance.
- Supporting approved public amenities such as seating, pathways and other features that encourage constructive use of public spaces.

Projects will be informed by inclusive and people-centred urban-design principles. Public spaces should welcome legitimate community use, encourage social interaction and improve natural surveillance without relying on hostile or exclusionary design.

Projects will be presented to the Board with an assessment of their anticipated community benefit, environmental impact, installation cost, ongoing maintenance requirements and any approvals required from the City or another landowner.

### **Community Composting and Organic-Waste Diversion**

During the previous five-year term, OBSID established a community composting facility to divert household organic waste from landfill and produce compost for use in local greening projects.

During the next five-year term, OBSID will:

- Continue operating and maintaining the community composting facility.
- Encourage responsible participation by residents and local businesses.
- Monitor participation and the volume of organic waste diverted from landfill.
- Use suitable finished compost in OBSID-supported parks, planted beds and greening projects.
- Provide education on correct composting practices and contamination prevention.
- Assess opportunities to increase participation or expand the service where site capacity, operational requirements, environmental considerations and available funding allow.

Any expansion will be subject to appropriate permissions, responsible site management and a sustainable operating model.

### **Geographic Application and Allocation of Resources**

Routine environmental maintenance will be undertaken across municipal parks, planted areas and selected public open spaces throughout the approved OBSID boundary.

The frequency and intensity of work may vary according to:

- The size and condition of each space.
- Levels of public use.

- Seasonal growth and watering requirements.
- Environmental risk and biodiversity value.
- The condition of existing infrastructure.
- The availability of irrigation or other resources.
- Community participation and partnership opportunities.
- The need to protect previous investments made by OBSID.

Additional projects will not necessarily be distributed uniformly throughout the CID. Resources will be prioritised for spaces where intervention will deliver the greatest public benefit, address visible deterioration, support high levels of community use or improve connections between important public places.

This targeted allocation will be based on transparent operational and environmental criteria rather than the interests of an individual property or stakeholder.

## **Five-Year Plan**

During the five-year term, OBSID will:

1. Maintain a dedicated environmental service for two days each week.
2. Continue maintaining parks, planted areas, verges and public open spaces within the agreed scope of work.
3. Protect and maintain existing OBSID-funded greening and public-space investments.
4. Develop additional greening, landscaping and biodiversity projects for Board consideration.
5. Continue operating the community composting facility and assess sustainable opportunities for expansion.
6. Promote indigenous and water-wise planting, improved soil health and responsible water use.
7. Undertake targeted alien and invasive vegetation-clearing projects.
8. Support awareness, monitoring and reporting relating to the Polyphagous Shot Hole Borer.
9. Work with the City to address damaged infrastructure and environmental concerns in parks and public open spaces.
10. Monitor service-provider performance and record completed work, project expenditure and environmental outcomes.

## Resource Allocation and Five-Year Budget

The five-year Environmental Development budget provides for the continuation of the two-day-per-week maintenance service, reasonable inflation-related increases, replacement of minor equipment and the implementation of approved environmental and public-space projects.

The total estimated cost of these services is reflected under Environmental Development in the five-year term budget. Larger projects will be supported by project-specific budgets and may also make use of approved surplus funds, donations, sponsorships or partnerships where appropriate.

Each proposed project will be assessed before approval to ensure that its installation and ongoing maintenance costs are affordable and that it delivers a lasting public benefit.

### Total Estimated Costs

| Description               | Year 1          | Year 2          | Year 3          | Year 4          | Year 5          | Total expenditure |
|---------------------------|-----------------|-----------------|-----------------|-----------------|-----------------|-------------------|
| Environmental Development | R338,940        | R359,276        | R380,833        | R403,683        | R427,904        | R1,910,636        |
| <b>TOTAL</b>              | <b>R338,940</b> | <b>R359,276</b> | <b>R380,833</b> | <b>R403,683</b> | <b>R427,904</b> | <b>R1,910,636</b> |

### Allocation of Resources

Resources will be used across all areas of the OBSID based on a structured rollout programme.

## Alignment with the Municipality's IDP and with section 22(4) of the MPRA

The Environmental development is fully aligned with the City's Integrated Development Plan (IDP) and complies with the requirements of Section 22(4) of the MPRA, which stipulates that the determination of a special rating area must be consistent with the objectives of the IDP. This alignment is illustrated in the table below.

| ENVIRONMENTAL DEVELOPMENT |                                                                                           |                                                                                              |                                                         |
|---------------------------|-------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------|---------------------------------------------------------|

## **Social and Economic Development**

### **Social Development**

Social development forms part of the core mandate of a City Improvement District. Observatory has historically had a significant number of economically vulnerable people, including individuals who have experienced homelessness in the area for extended periods.

Over the years, OBSID has implemented various programmes and developed partnerships to assist vulnerable people. Experience has shown that homelessness cannot be addressed through a single intervention. Many long-term street-based residents face complex and overlapping challenges, including deteriorating physical or mental health, substance dependence, missing identity documents, family disconnection and limited access to suitable accommodation or employment.

Some individuals may not initially be ready or able to accept the assistance offered. OBSID will therefore continue providing consistent, compassionate and professional engagement while recognising each person's dignity, circumstances and right to make informed choices.

### **Objective and Intended Impact**

Observatory is a community in which all people are treated with dignity and respect and can access compassionate support, appropriate referrals and clear information during times of vulnerability.

### **Social Work and Case-Management Services**

OBSID will continue providing access to professional social-work support within its mandate and available capacity. Services will include:

- Engaging with vulnerable and street-based individuals to understand their circumstances and immediate needs.
- Undertaking individual needs and risk assessments.
- Developing and maintaining individual case-management plans.
- Assisting with applications for identity documents and other essential documentation.
- Supporting applications for social grants and other available assistance.
- Facilitating access to shelters and transitional accommodation where suitable placements are available.
- Referring individuals to medical, mental-health, substance-use and other specialised services.

- Supporting family reunification where appropriate, safe and agreed to by the individual.
- Providing linkage support to help individuals attend appointments and remain connected to referral organisations.
- Offering information and appropriate individual support to vulnerable residents from the broader Observatory community.
- Following up on referrals and placements to assess whether further intervention is required.

Case management will be undertaken with appropriate regard for consent, confidentiality, professional ethics and the protection of personal information.

## **Partnerships and Referrals**

OBSID cannot address homelessness, mental-health challenges, substance dependence and economic vulnerability in isolation. It will continue to build and maintain relationships with:

- Shelters and transitional-housing organisations.
- Healthcare and mental-health service providers.
- Substance-use treatment and rehabilitation programmes.
- Organisations assisting with identity documents and social grants.
- Feeding programmes and responsible-giving initiatives.
- Employment-readiness and skills-development programmes.
- SAPS, City departments and emergency services.
- Community organisations, faith-based organisations and other relevant partners.

Where appropriate, OBSID may provide financial or operational support to organisations that deliver immediate assistance or longer-term interventions. Partnerships will be reviewed periodically to ensure that they provide accountable, relevant and measurable benefits.

## **Employment and Developmental Opportunities**

Where appropriate and practical, OBSID will seek to create short-term work, training or developmental opportunities for vulnerable individuals through its projects and service partnerships.

Participation will be voluntary and based on an individual's ability, circumstances and readiness. These opportunities will be implemented responsibly and will not replace professional social-work intervention or permanent employment.

## **Community Information and Responsible Support**

OBSID will provide residents and businesses with information about available social services and appropriate ways to assist vulnerable people. This will include:

- Maintaining and sharing information on shelters, healthcare services and other referral resources.
- Promoting responsible-giving options that support sustainable interventions.
- Providing guidance on how to report concerns involving vulnerable individuals.
- Encouraging respectful engagement while discouraging actions that may unintentionally prolong harmful street-based circumstances.
- Explaining the respective roles of OBSID, the City, SAPS, healthcare providers and social-service organisations.

## **Five-Year Social Development Plan**

During the five-year term, OBSID will:

1. Maintain access to professional social-work and case-management services.
2. Continue proactive engagement with vulnerable and street-based individuals.
3. Strengthen referral pathways to shelters, healthcare, mental-health and substance-use services.
4. Maintain partnerships with organisations providing immediate and longer-term assistance.
5. Support access to identification documents, social grants and other essential services.
6. Promote responsible giving and improve public access to social-service information.
7. Identify suitable employment, skills-development and reintegration opportunities where possible.
8. Record and monitor engagements, referrals and outcomes while protecting personal information.
9. Review supported organisations and programmes to ensure that available resources are directed towards effective and accountable interventions.

Success will be measured through sustained engagement and individual outcomes rather than the unrealistic expectation that OBSID can eliminate homelessness independently.

## **Economic Development**

As a Mixed-Use Improvement District, OBSID must balance the needs of residential and non-residential property owners while serving the broader Observatory community.

Residents and businesses benefit from OBSID's public-safety, cleaning, environmental and social-development programmes. These services create the basic conditions needed for economic activity: a neighbourhood that is safe, clean, accessible, attractive and welcoming.

Economic development forms part of OBSID's mandate. However, economic growth must be pursued in a way that respects Observatory's residential character, social diversity and environmental responsibilities. A retail business may seek increased foot traffic and extended activity, while nearby residents may value privacy, reasonable noise levels and quieter public spaces. OBSID will acknowledge and manage these competing interests rather than promote one at the expense of the other.

## **Objective and Intended Impact**

Observatory is recognised as an attractive and distinctive destination for customers, visitors, employees and a diverse range of businesses. It provides a supportive, safe and clean environment in which responsible businesses can operate successfully while respecting residents and contributing positively to the wider community.

## **Supporting a Positive Business Environment**

OBSID will support local economic activity by:

- Providing a clean, safe and welcoming public environment for businesses, employees, customers and visitors.
- Maintaining visible public-safety services in commercial and high-pedestrian areas.
- Responding to cleaning, illegal-dumping and public-space concerns affecting business activity.
- Engaging businesses on shared operational challenges and possible solutions.
- Sharing relevant municipal, safety and community information with local businesses.
- Encouraging businesses to participate in community and place-improvement initiatives.
- Promoting responsible trading practices and compliance with relevant legislation and municipal requirements.

## **Access, Traffic and Parking**

Traffic congestion, loading activity, pedestrian safety and parking management directly affect both businesses and residents.

OBSID will continue working with the City of Cape Town on proposals to improve:

- Traffic flow through Observatory.
- Pedestrian safety and accessibility.
- The management of parking and loading areas.
- Road markings, signage and intersection design.
- Access to retail and commercial areas.
- The impact of traffic on residential streets.

Where practical, OBSID may develop and fund appropriate traffic-management or public-realm interventions, subject to City approval, available funding and Board authorisation.

## **Events, Place Activation and Destination Marketing**

OBSID may support events and place-activation initiatives that attract visitors, showcase local businesses and strengthen Observatory's identity. These may include:

- Cultural, heritage, artistic and community events.
- Initiatives that activate appropriate public spaces.
- Programmes that highlight Observatory's independent businesses and diverse character.
- Heritage routes, walking tours and destination information.
- Partnerships with local media, event organisers and community organisations.
- Seasonal campaigns and activities that encourage responsible local spending.

Events and activations will be assessed with consideration for resident access, noise, traffic, safety, waste management and the ongoing use of public spaces.

## **Sustainable and Responsible Business Practices**

OBSID will encourage businesses to adopt practices that contribute positively to the community and environment. These may include:

- Responsible waste management and recycling.
- Participation in organic-waste diversion and composting initiatives.
- Reduced reliance on unnecessary single-use materials.
- Responsible water and energy use.
- Ethical employment and procurement practices.
- Support for local suppliers and community organisations.
- Participation in greening, cleaning and public-space improvement projects.
- Responsible management of noise, trading areas and the space surrounding business premises.

Businesses that operate sustainably and contribute positively to the neighbourhood strengthen Observatory's reputation and help attract customers, investment and new commercial opportunities.

## **Five-Year Economic Development Plan**

During the five-year term, OBSID will:

1. Maintain the public-safety, cleaning and environmental services that underpin a positive local business environment.
2. Continue engaging the City on traffic flow, parking, loading and pedestrian-management proposals.
3. Support appropriate events and activations that attract visitors and showcase Observatory.
4. Promote Observatory's heritage, character and independent business community.
5. Improve communication and collaboration between OBSID, businesses, residents and relevant authorities.
6. Encourage environmentally sustainable, ethical and socially responsible business practices.
7. Support approved public-space and placemaking projects that strengthen economic activity while respecting nearby residents.
8. Explore partnerships, sponsorships and media opportunities that promote Observatory without placing an unreasonable burden on additional ratepayers.
9. Assess initiatives against clear community-benefit, affordability and long-term sustainability criteria.

## Resource Allocation and Five-Year Budget

The five-year **Social and Economic Development** budget provides for the continuation of existing programmes, reasonable inflation-related increases and the implementation of approved social-development, economic-development, communication, event and place-activation initiatives.

The programme budget does not include the salaries of directly employed specialist staff, such as the social worker and social auxiliary worker. These costs are recorded separately under OBSID's staffing or personnel expenditure.

The total estimated cost of the programmes is reflected under **Social and Economic Development** in the five-year term budget. Larger projects may be supported through project-specific allocations, approved surplus funds, donations, sponsorships or partnerships where appropriate.

Before approval, each proposed project or partnership will be assessed against:

- Its anticipated social, economic or community benefit.
- The number and range of people likely to benefit.
- Affordability and available funding.
- The responsibilities of OBSID and its project partners.
- Legal, operational and reputational risks.
- Ongoing operating or maintenance costs.
- The ability to monitor and report on outcomes.
- Its consistency with OBSID's obligation to serve a mixed-use community fairly.

This approach will allow OBSID to continue established services while retaining sufficient flexibility to respond to appropriate opportunities during the five-year term.

## Total Estimated Costs

| Description                     | Year 1   | Year 2   | Year 3   | Year 4   | Year 5   | Total expenditure |
|---------------------------------|----------|----------|----------|----------|----------|-------------------|
| Social and Economic Development | R100,000 | R106,000 | R112,360 | R119,102 | R126,248 | R563,710          |
| <b>TOTAL</b>                    | R100,000 | R106,000 | R112,360 | R119,102 | R126,248 | R563,710          |

## Allocation of Resources

Resources will be used fairly across all areas of the OBSID based on the community needs.

## Alignment with the Municipality's IDP and with section 22(4) of the MPRA

The Social and Economic Development Programme is fully aligned with the City's Integrated Development Plan (IDP) and complies with the requirements of Section 22(4) of the MPRA, which stipulates that the determination of a special rating area must be consistent with the objectives of the IDP. This alignment is illustrated in the table below:

| SOCIAL AND ECONOMIC DEVELOPMENT |                                                                  |                                                           |                                                          |
|---------------------------------|------------------------------------------------------------------|-----------------------------------------------------------|----------------------------------------------------------|

## Communication and Marketing

OBSID recognises that Observatory is home to a diverse community of residents, businesses, students, property owners, visitors and community organisations, each with different information needs and interests. Effective communication is therefore fundamental to building trust, encouraging participation and ensuring that accurate, verified information is readily available.

Beyond keeping the community informed, OBSID seeks to celebrate Observatory's unique identity by promoting its heritage, culture, businesses and community initiatives. Through consistent, engaging and trusted communication, OBSID aims to strengthen community pride, encourage responsible citizenship and position Observatory as a safe, vibrant and attractive place in which to live, work, study, invest and visit.

### Objective and Intended Impact

Observatory is a well-informed, connected and engaged community in which residents, businesses and visitors have access to trusted information and opportunities to participate in community life.

Residents and businesses are proud ambassadors for Observatory, while the area is recognised as an attractive destination for investment, innovation, tourism and cultural experiences.

### OBSID Activities That Contribute to This Vision

During the five-year term, OBSID will:

- Maintain verified **Notify Me!** WhatsApp channels that provide timely information relevant to specific areas and stakeholder groups within Observatory.
- Develop and distribute digital and, where appropriate, printed welcome packs for new residents, businesses and property owners. These packs will introduce OBSID's services, reporting channels, community resources and responsible residential and business practices.
- Maintain the OBSID website as the organisation's central source of official information. The website will share news, service updates, governance documents, AGM information, annual reports, business plans, budgets, membership applications and links to OBSID's social-media platforms.

- Produce and distribute an electronic newsletter every two months, providing at least six newsletters each year. Urgent or time-sensitive information will be communicated separately.
- Maintain an active presence on social-media platforms such as Facebook and Instagram.
- Provide timely, accurate and verified information on matters affecting the Observatory community, while protecting personal information and avoiding the publication of unconfirmed reports.
- Celebrate Observatory through positive media engagement, press releases, photography, video and digital storytelling.
- Develop communication campaigns that encourage community participation, active citizenship and shared responsibility for public spaces.
- Promote Observatory's heritage, arts, culture, independent businesses and local attractions.
- Support and educate the student community by promoting environmental responsibility, personal safety, consideration for neighbours and integration into the wider Observatory community.
- Market Observatory as a welcoming destination for visitors, investment and entrepreneurship through the continued development of partnerships with WOTC and other appropriate media and destination-marketing organisations.
- Promote initiatives that encourage environmental sustainability, responsible business practices and social responsibility.

## **Professional Communication Support**

OBSID will continue to make use of suitably qualified communications, marketing, design and web service providers. Appointments will be made and reviewed through the appropriate procurement and governance processes.

The service provider or providers may assist with:

- Communication planning and content calendars.
- Newsletter preparation and distribution.
- Website maintenance and content management.
- Social-media content and scheduling.
- Graphic design, photography and video.
- Media liaison and press releases.
- Marketing campaigns and destination promotion.
- Communication analytics and performance reporting.

The Chief Executive Officer will remain responsible for approving official OBSID communication, while the Board will exercise oversight through the approved business plan, annual budget and performance-reporting processes.

## **Annual Community Surveys**

OBSID will conduct an annual community survey during the five-year term. The surveys will provide an opportunity for residents, businesses, property owners and other stakeholders to comment on OBSID's performance and identify changing priorities.

The surveys will measure matters such as:

- Awareness and understanding of OBSID's mandate.
- Satisfaction with public safety, cleaning, environmental and social-development services.
- Perceptions of safety.
- The reach and effectiveness of OBSID's communication channels.
- Community priorities and concerns.
- Participation in OBSID initiatives.
- Whether stakeholders believe OBSID is delivering value and improving Observatory.

The results will be benchmarked against previous surveys to identify changes in community perceptions over time. Findings will be reported to the Board, shared with the community and used to inform service improvements and future planning.

Shorter project-specific surveys may also be conducted where feedback is required on a particular proposal or service.

## **Measuring Communication Performance**

OBSID will measure communication reach and community engagement through indicators such as:

- Website visits and use of online resources.
- Newsletter distribution and readership.
- Notify Me! subscriber numbers and message reach.
- Social-media reach and engagement.
- Attendance at meetings and events.
- Survey participation and feedback.
- Media coverage and partnership outcomes.
- The number and nature of enquiries received.

This information will be reviewed regularly to improve the relevance and effectiveness of OBSID's communication strategy.

## **Resource Allocation and Five-Year Budget**

The five-year Communication and Marketing budget provides for:

- Professional communications and marketing services.
- Website hosting, security, maintenance and development.
- Newsletter design and distribution.
- Social-media and digital-content production.
- Photography, video, graphic design and printing.
- Media liaison and destination-marketing partnerships.
- Welcome packs and public-information materials.
- Annual surveys and communication-performance measurement.
- Reasonable inflation-related increases over the five-year term.

The total estimated cost is reflected under Communication and Marketing in the five-year term budget.

Larger campaigns, website developments or destination-marketing projects will be supported by project-specific budgets and may make use of approved surplus funds, sponsorships, donations or partnerships where appropriate. Each project will be assessed against its anticipated reach, public benefit, affordability and measurable outcomes before approval.

### **Total Estimated Costs**

| <b>Description</b>       | <b>Year 1</b> | <b>Year 2</b> | <b>Year 3</b> | <b>Year 4</b> | <b>Year 5</b> | <b>Total expenditure</b> |
|--------------------------|---------------|---------------|---------------|---------------|---------------|--------------------------|
| Advertising              | R6,500        | R6,890        | R7,837        | R8,307        | R8,806        | R38,340                  |
| Marketing and promotions | R310,000      | R328,600      | R348,316      | R369,215      | R391,368      | R1,747,499               |

|              |                 |                 |                 |                 |                 |                   |

| <b>TOTAL</b> | <b>R316,500</b> | <b>R335,490</b> | <b>R356,153</b> | <b>R377,522</b> | <b>R400,174</b> | <b>R1,785,839</b> |
|--------------|-----------------|-----------------|-----------------|-----------------|-----------------|-------------------|

## **Management and operations**

The OBSID is committed to transparent, accountable and ethical management that ensures the effective delivery of services, responsible use of public funds, meaningful stakeholder participation, and strong partnerships that contribute to a safe, vibrant and sustainable community

### **Objective (Intended Impact)**

OBSID delivers effective, accountable and sustainable management that enhances service delivery, strengthens community participation, and promotes strategic partnerships. Through transparent governance and responsible resource management, OBSID supports a thriving, inclusive and resilient Observatory where residents and businesses are empowered to contribute to the area's continued success.

### **OBSID activities that contribute to this vision**

- OBSID is an inclusive and empowering employer seeking to promote quality skills
- Reduce the financial burden on additional rate payers (ARPs) through cost-neutral projects and practise ethical and responsible procurement.
- Provide respectful and dignified services and interactions with stakeholders, partners and service providers.
- Undertake activities in an ethical and environmentally responsible manner.
- Ensure strong and transparent financial processes and procedures.
- Commitment to maintain ethical practices.
- Actively recruit a diverse Board and team, including a diversity of skills at all levels.
- Provide temporary employment to economically vulnerable individuals through partnerships.

- Promote professional development.
- Employees receive equitable remuneration.
- Promote and support local businesses and organisations within the limitations of the proper procurement process.

## **Management and structure:**

OBSID is an independent non-profit company governed by a Board of Directors, elected by members.

The Board of Directors will consist of eligible property owners within OBSID boundaries, co-opted board members and a political representative from the City of Cape Town attending the Board Meetings as Board Observer.

The Board will be responsible for the management of the OBSID, within the framework of the relevant legislation and the approved OBSID business plan and oversees the implementation thereof.

The Board of Directors will formally meet at two monthly intervals, in addition ad hoc Board meetings will be called as and when necessary to attend to the business of OBSID.

### Current Board of Directors

1. Justin Ashley – Board Chairperson
2. Janine Titley– Board Vice Chairperson
3. Edwin Angless – Director
4. David Barraclough – Director

5. Benji Schaffer – Director
6. Maarten Turkstra – Director
7. Julie van der Vlugt– Director
8. Henri Van Eetveldt – Director

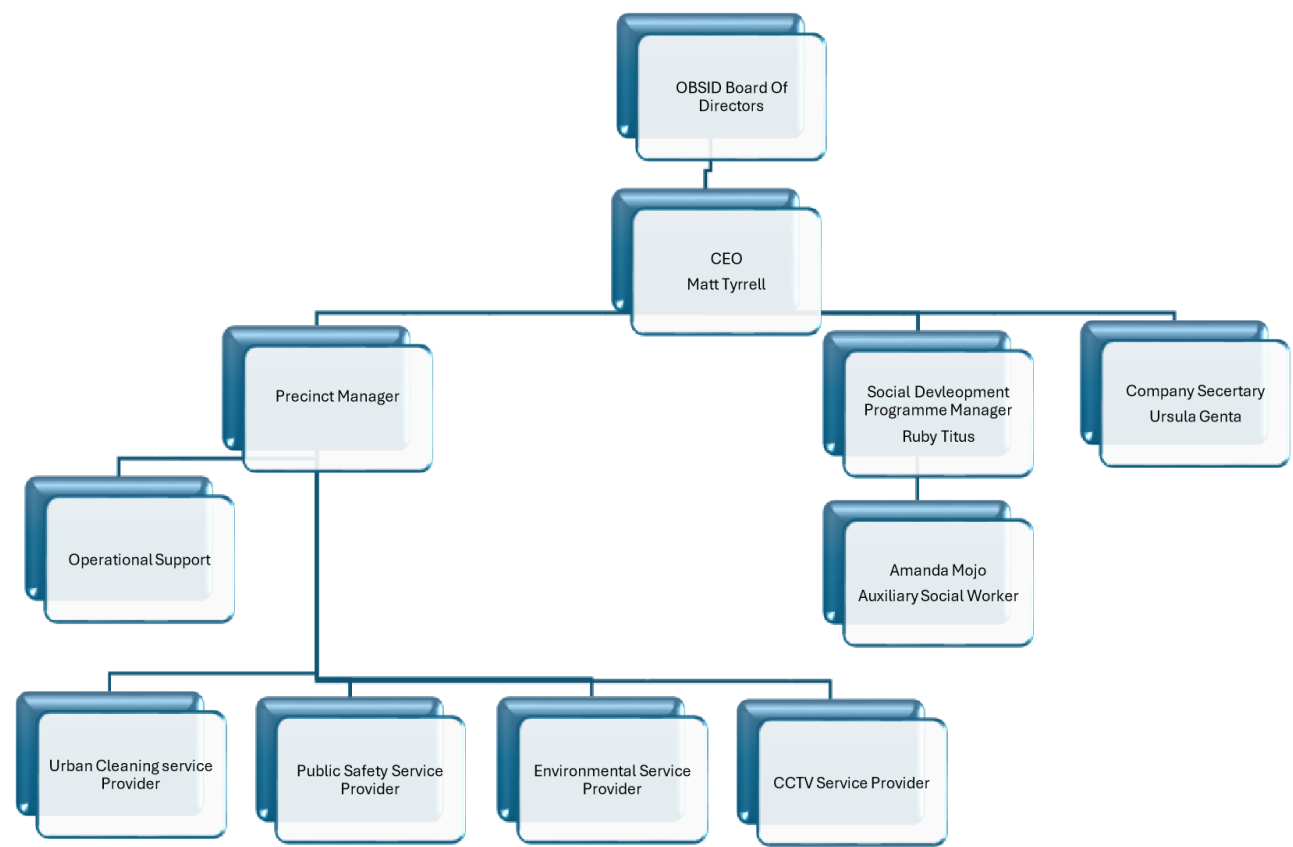

An Annual General Meeting will be held every year to:

- Review the performance of the OBSID;
- Confirm the mandate of its members;
- Discuss & approve the budget and implementation plan for the following year;
- Elect new directors if necessary.

Operations of the OBSID will be managed by a Chief Executive Officer who will report to and be managed by the Board of Directors. Individual performance reviews will be held twice annually at all levels of the organisation, including the CEO, aligned to the organisational review timeline.

The CEO will update the Board of Directors monthly regardless of scheduling of Board meetings.

OBSID Organogram:

## **Management functions:**

The following management functions will be fulfilled:

- Manage and maintain with the City of Cape Town CID office: ensure compliance to City of Cape Town reporting requirements (financial reporting, implementation plans, budgets- annual mid-year reviews, attend all CID meetings, and provide ad hoc reports as requested.
- Finance management: ensure compliance with GAAP principles as regards cash management, procurement, creditors and debtor's management, preparation of management accounts, adherence to budget, financial record keeping, annual audit protocols, annual financial statements, asset registers, investment and call account management and related.
- Maintenance of performance review system for all activities of OBSID (including Board metrics).
- Preparation and submission of all reports to agreed timelines: City of Cape Town, Board of Directors, member reports and others.
- Ensure that CID complies with all legislative requirements as regards, Procurement, Term renewal, CIPC requirements, tax and VAT.
- Participate proactively in various meetings as and when requested to do so by partners (OCA, ORCA), other CIDs, City of Cape Town, service providers and Board of Directors.
- Maintain appropriate office systems and functionality: IT infrastructure (hardware and software), shared drives, data management, telephony, printing, internet and time and attendance systems.
- Ensure that HR systems and practices comply with legal and best practice frameworks, including recruitment and selection, employment contracts, leave administration, employee files, working hours, overtime management, job descriptions, performance reviews, training and development, misconduct and incapacity management processes.

- Ensure adherence to MOI and sound CID membership practices, including, but not limited to, processing of membership applications, coordination and management of AGM and related.
- Ensure community complaints and reports are addressed and attended to and feedback given as appropriate.
- Complete annual review of policies and procedures manual with Board input to ensure continued relevance, effectiveness and suitability.

### **Financial and performance reporting requirements vis-à-vis the City:**

The OBSID will comply with all reporting requirements of the City of Cape Town's CID Management Unit, inclusive of the submission of monthly progressive income and expenditure reports, annual budgets and implementation plans, half year reviews as well as the submission of Annual Financial Statements, CIPC related documentation, SARS returns and notices and draft minutes of Annual General Meetings.

The Executive Officer, in acting in the best interests of the OBSID, will report in writing to the board of directors and the City any serious or persistent financial problems experienced by the OBSID.

The board of directors will promptly report in writing to the City any irregular or fruitless and wasteful expenditure. The board of directors must also report any irregular expenditure or other loss resulting from real or suspected criminal conduct.

The Executive Officer will report to the City any interference by a councillor outside of that councillor's assigned duties, relating to the financial affairs of the OBSID or the responsibilities of the board of directors.

### **Membership:**

Membership of the OBSID will be open to all qualifying property owners within the OBSID boundary.

## **Measures to ensure inclusivity:**

The OBSID's communication programme will ensure that the community is kept aware of OBSID programs and projects and are encouraged to engage with the OBSID on a regular basis.

Property owners within the OBSID boundaries will be encouraged to apply to become members of the OBSID so that they can exercise their rights and influence the business of the OBSID.

The OBSID will publish a schedule of dates of upcoming Board meetings on the website.

Details of the Annual General Meeting will be communicated via email, social media, community WhatsApp groups, posters and notices in the public space to encourage both ARPs and non-ARPs to attend.

## **Future Opportunities**

Over the next five years, OBSID will explore opportunities to further strengthen its role as an innovative and community-focused urban management organisation, while operating within the scope of its mandate.

## **Potential Operational expense cost saving project:**

OBSID is currently leasing suitable office space from a private landlord at market-related rates.

During engagement around the recent Hartleyvale Sports Precinct Contextual Framework, both members of the public and OBSID identified the property commonly referred to as the "SAN Circus Site" as a potential long-term community asset. The site is presently unlawfully occupied; however, when the City successfully reclaims the property, OBSID would support exploring the feasibility of renovating and repurposing the existing structures into a shared community-oriented facility.

Such a facility could potentially accommodate OBSID offices together with other community-focused organisations, environmental groups, subject to feasibility, funding availability, and approval processes. This approach could contribute toward improved community collaboration, operational efficiency, and activation of an important public asset within Observatory.

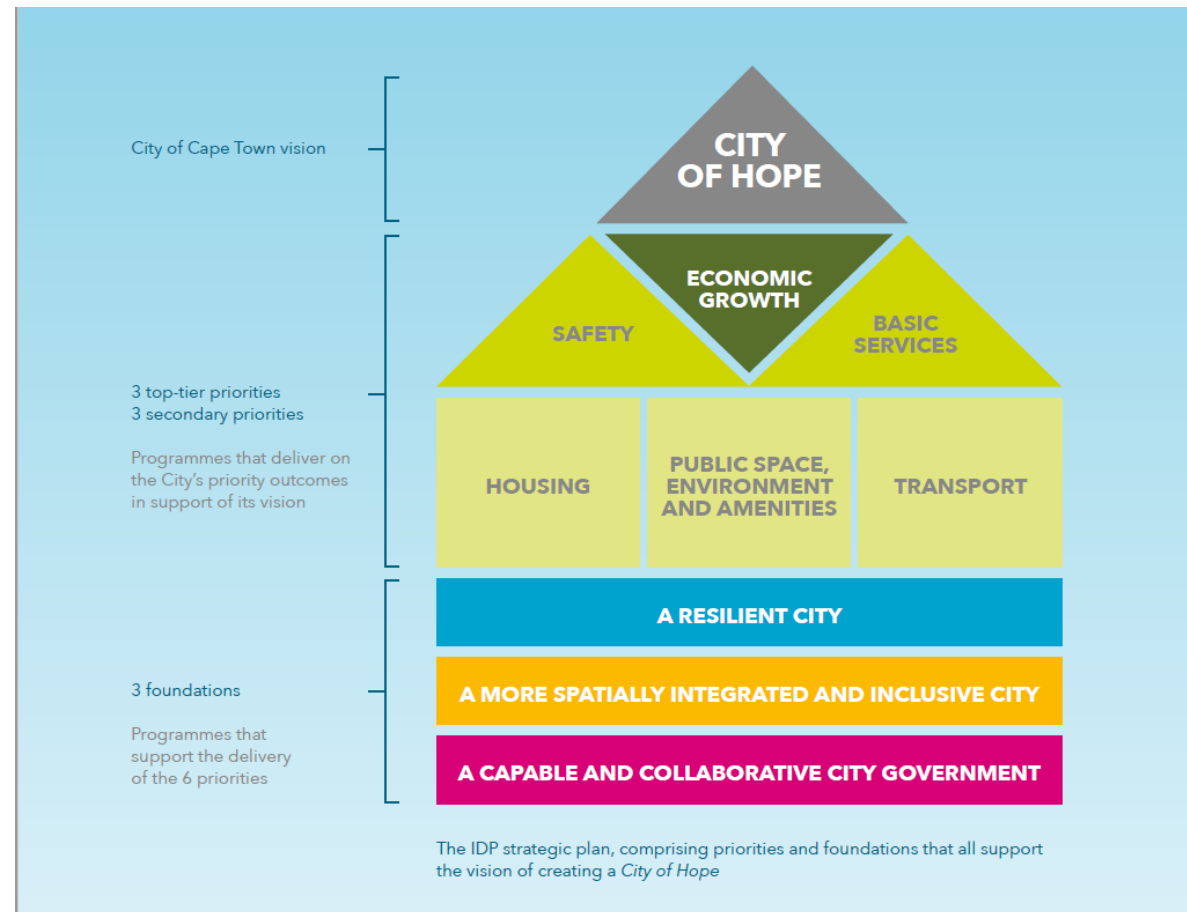

Other potential future initiatives may include:

- Smart precinct technologies and integrated public safety systems;
- Expanded placemaking and public space activation projects;
- Environmental innovation and sustainability programs;
- Partnerships and programs aimed at addressing the mental health and wellbeing challenges affecting the chronically unhoused community;
- Improved mobility, traffic calming and pedestrian safety initiatives; and
- Community-based environmental education and urban resilience projects.

These opportunities will be explored responsibly and implemented subject to operational sustainability, strategic alignment and the availability of funding and partnerships.

## The City of Cape Town's Integrated development plan:

OBSID is committed providing supplementary services that enhance, rather than replace, those delivered by local government. Thus, it is important to ensure the service we offer is aligned to the City of Cape Town Integrated Development Plan (IDP).

The table below looks at the detail of the four pillars and provides how the business plan is in align with the vision and development plan with the City of Cape Town.

| CID PROGRAMMES                                             | PRIORITIES                              | OBJECTIVES                                                                                          | PROGRAMMES                                                                                                               |

| Social and Economic Development | N/A | <b>OBJ 15:</b> A more spatially integrated and inclusive City | 15.2 Social Inclusion and Well-being Programme |

### Financial impact of OBSID:

In line with the City's CID By-law, the Management Body is required to prepare a proposed annual budget for each successive financial year by the date and in the format required by the Executive Director based on the specific needs of the area as set out in the Business Plan. The budget is funded by an additional property rate levied on the municipal valuation of all properties within the CID boundary.

The CID By-law allows for differentiated additional rates between categories of ratable property and as such a non-residential additional rate is applicable in the OBSID.

Below is a summarised version of the Budget for each year of the Business Plan:

| <b>YEAR</b> | <b>TOTAL EXPENDITURE</b> | <b>REVENUE</b><br>(Funding Source:<br>Additional Rates) | <b>REVENUE</b><br>(Other Funding<br>Source:<br>Accumulated<br>Surplus) | <b>% INCREASE IN<br/>ADDITIONAL<br/>RATES<br/>REQUIREMENT</b> |
|-------------|--------------------------|---------------------------------------------------------|------------------------------------------------------------------------|---------------------------------------------------------------|

The term budget represents the funding requirements for the envisioned enhanced and supplementary municipal services, administrative requirements, and appropriate contingencies. A detailed breakdown of the five-year budget is provided in Part C.

The property rate is calculated by the City annually during the City's budget process. The additional rate is expressed as a Rand-in-the-rand and is calculated by dividing the budget total with the total municipal valuation of properties in the CID.

The impact on individual property owners in the outer years of the CID term may vary due to valuation fluctuations caused by successful valuation objections, subdivisions, new developments, court amendments, implementation of a new General Valuation or Supplementary Valuation causing the CID budget to be spread over an increased or reduced total municipal valuation base.

Property owners who receive a full or partial rates rebate will not pay additional rates. Should property owners receive partial or full relief in respect of rates they would enjoy full exemption from payment of any OBSID additional property rates. It is however incumbent on the property owner to seek such relief from the City under the City's rates policy.

The budget and additional rates are approved by Council with the City's budget and is applicable over a financial year, which starts on 1 July. Individual contributions for residential and non-residential properties can be calculated as follows:

- $\text{Municipal valuation} \times R\ 0.\text{ XXXXXX} = \text{Annual contribution (VAT excluded)}$   
– *Note: R 0. XXXXXX represents the approved CID additional property rate.*
- $\text{Annual contribution (VAT excl.)} \div 12 = \text{Average monthly contribution (VAT excl.)}$
- $\text{Average monthly contribution (VAT excl.)} \times 1.15 = \text{Average monthly contribution (VAT incl.)}$

## **Permissible Amendments to the Business Plan without Further Consent**

If a determination is made to affect a material alteration to the geographical boundaries of the CID, such alteration shall be implemented in accordance with the formal process in Section 26 of the CID By-law.

If an amendment to the geographical boundaries of a CID is deemed non-material and does not alter the terms of liability or the quantum of the additional rate levied, such amendment shall be undertaken in compliance with Section 25 of the City Improvement District By-law, 2023.

Where additional services or amendment to existing services or strategies are necessitated through collaboration with municipal departments or any other reason, and such services are not expressly provided for in the motivation report but is deemed as enhanced and/or supplementary municipal services, the business plan may be amended without further consent,

provided that the amendment is non-material, the process prescribed under Section 25 of the CID By-Law is duly followed. If it is determined that the amendment is material, section 26 of the CID By-law will become applicable.

There are currently no further plans to investigate or explore significant changes to the strategy or operations of the (Name) CID and therefore none are noted here.

**List of all rateable properties within the CID**

A list of all rateable properties within the OBSID is attached as Annexure A.
